## **The SEER Group LLC Acquires Majority Stake in Brower Mechanical**

SEATTLE, WASH - The SEER Group LLC ([www.theseergroup.com](http://www.theseergroup.com)) is pleased to announce its seventeenth acquisition, a majority stake in Brower Mechanical, in Rocklin, California ([www.browermechanical.com](http://www.browermechanical.com)). This is the second acquisition for The SEER Group LLC in California after its acquisition of Breeze Air Conditioning in Palm Desert, CA in 2018.

Founded in 1979, Brower Mechanical has served the residential and commercial heating, cooling, and air needs of the greater Sacramento region for over 40 years. Known as a local leader in energy efficiency, Brower offers a range of home performance solutions beyond heating and cooling equipment. The company will continue to be led by partner and General Manager Duane Knickerbocker at its Rocklin, CA headquarters.

“We are thrilled to have Brower Mechanical joining our group and look forward to working with Duane as our newest partner as he continues to guide and manage the business” states Darrin Erdahl, CEO and founder of The SEER Group LLC. This acquisition highlights The SEER Group’s commitment to expanding in California while continuing to grow nationally.

“When evaluating a potential partnership opportunity, we look for market-leading brands with a strong company culture and that’s exactly what we found with Duane’s team at Brower Mechanical”, says Eric Beardemphl, president and partner of The SEER Group LLC. “Duane has taken a very innovative approach with Brower and it has allowed him to create value for customers while also building a culture supportive of continual development in his team members.”

“With all of the uncertainty in the HVAC world, I was looking to partner with a company that could help manage and hopefully lower our overhead”, says Brower Mechanical GM, Duane Knickerbocker. “That, and the ability for our department managers to learn from department managers of outside companies that are also part of The SEER organization is very unique in this industry.”

*Headquartered in the Pacific Northwest, Washington, The SEER Group LLC ([www.theseergroup.com](http://www.theseergroup.com)) is a privately owned collection of industry-leading residential and commercial HVAC, electrical, and plumbing companies. Its mission is to help its partner company owners grow their businesses, achieve their financial goals, and facilitate planned exit strategies. Through flexible investment solutions, The SEER Group LLC provides entrepreneurs with the opportunity to sell all or part of their businesses depending on their financial goals and other objectives.*
